

The Right Connection®

Dixon® Composite Butterfly Valves

For dry bulk cargo tank applications

Application:

- controls product flow on dry bulk cargo tankers

Sizes:

- 3", 4", 5" and 6" 150# ANSI profiles

Materials:

- body: lightweight composite
- disc: iron, aluminum, or stainless steel
- seats: white Baylast™ rubber

Features:

- reinforced composite body valves are a rugged lightweight alternative to the heavier, more expensive aluminum valves
- Bayco proven field reliability and corrosion free design
- drop in replacement to upgrade existing aluminum valves
- weight reduction allows for increased payload

Approval:

- FDA compliant seats
